

Getting the Free Zoom App

Go to either Google Play Store (PC/Android), App Store (MAC/iPad/iPhone) or ZOOM.US and download “**Zoom Cloud Meetings.**”

Once that’s downloaded, tap **Sign Up.**

Enter your birth date and tap **Confirm.**

Enter your **name and email address**, agree to the **Terms of Service**, and tap **Sign Up.** Tap **OK.**

You will then receive an email confirming your signup. Go there and click the link to activate your Zoom account. You’ll next set up a password (write it down), and your activation is complete.

The Zoom icon will appear in your program/apps list. You can either JOIN A MEETING directly from that screen or close the Zoom App and join a meeting from the email link sent to you by ILR.
